Married Women Property Act

I was not aware of the MWP (Married Women Property Act) till the time I met a Deutsche Banker. The team genuinely believes in understanding the customer and introducing innovative concepts. All businessmen and professionals are exposed to creditor's risk. Under Section 6 the money invested is secured solely for the benefit of wife and child/children, nominated as beneficiaries under the life insurance policy and is absolutely safe from husband's creditor.

I was introduced to this concept wherein I could create a secure nest for my wife and kids.

I have secured my future by investing under MWP have you?
