Fund Performance

I invested in Aditya Birla Sun Life Plan and opted for a Unit Link Insurance Plan over a traditional plan with an objective of beating inflation and meeting long term goals. I am very satisfied with the systematic approach followed while choosing the fund and the way the assets have been managed. I plan to remain invested for the term of the contract so that I can reap the full benefits of the systematic investment option.

I have invested in ULIP plan for a long term perspective. Have you?
